Friday 16th October 2026 – Hobbits' Newsletter

Our School Mission is what God sent us into the world to do – to help build His kingdom through learning, playing and making friends together.

The tools we will use to do this are:

Loving, Caring, Sharing, Trusting, Respect.

Our theme for reflection this week was 'helping others'. We talked about why we help others and gave examples on how to do this.

RE: We have been thinking about the meaning behind stewardship and have been drawing pictures to represent what this means.

Maths: The children have been working hard on their column addition and column subtraction methods.

English: In English, we have focussed on our big writes for the term. We have been working hard on editing and publishing our work.

DT: We have been evaluating our houses from our parent workshop. We have thought about what went well and what we would change if we were to do it again.

This week we celebrated Mya for her hard work and behaviour for learning in class. We have also celebrated Beatrice for her dedication to learning. She always goes above and beyond in class and outside of school.

Teacher message:

Our class attendance this week: 94.7%

Thank you for coming along to the parent workshop. The children had a great time creating Roz's home. We appreciate your support.

Please can you kindly complete the permissions for the upcoming trips on Parent Pay as soon as possible.

Lots of jumpers have missing names and are ending up lost. Please can you kindly ensure your child's name is written clearly on the label to avoid this happening.
